

# Year 6 Term 1 What are we learning in each subject this half term?

## Maths

In Maths, we will start by revising place value and understanding how to partition, order and write larger numbers. We will then move on to using the four operations to calculate these numbers.

## Computing

In computing, we are going to be app planners. We will build on our knowledge and skills of how apps work and on what devices. Then, we will design our very own app.

## Science

In Science, we will be learning about Light. We will investigate how light travels, if we can bend light and how light travels through different objects.

## Term 1

Our theme is...  
**Conflict and Resolution**

## English

Our first text this half term is Letters from the Lighthouse which links to our theme of World War Two. In English, we will create our own newspapers, postcards and write our own ending to the story.

## History and Geography

In History, we will be learning all about World War 2. We will focus on why the war happened, evacuees and what happened to Plymouth during WW2.

In Geography, we will use our map skills to plot where the war took place and which countries were involved.

## Art

In art, we will be drawing using shading to create a landscape which includes a lighthouse.

## PE

In PE, we will be working on our coordination and agility skills during ball games. We will also be developing our cognitive skills by improving our awareness of space during games and becoming more aware of the decisions we make during team games.
