

Maths

We will be learning about fractions. We will find and write unit and non-unit fractions, compare fractions, place them on a number line, add and subtract fractions and recognise simple equivalents.

Art

We will look at French artists, Monet and Manet. We will then create our own paintings in the style of their work.

PSHE

We will identify and put into practise some of the skills of friendship. We will learn to use the 'solve it together technique' to resolve friendship problems.

Year 3 Term 5

Computing

We will be developing our coding skills, creating algorithms to create games and programming devices.

English

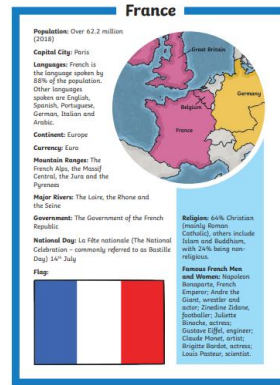

We will be reading Oliver and the Seawigs. We will learn about similes and prepositions. We will write a character description and our own adventure story!

Geography

We will be learning about France. We will locate France and Paris on a world map, take a look at some of France's most famous landmarks, features and characteristics. We will also try some French food!

Geography

Create a fact file all about France.

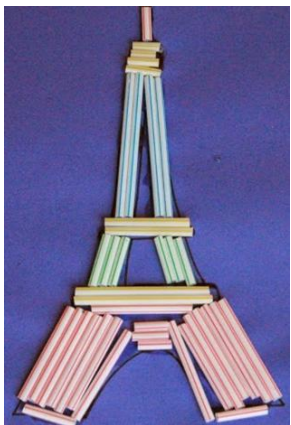

Computing

Create a game on Scratch using and developing algorithms.

Art

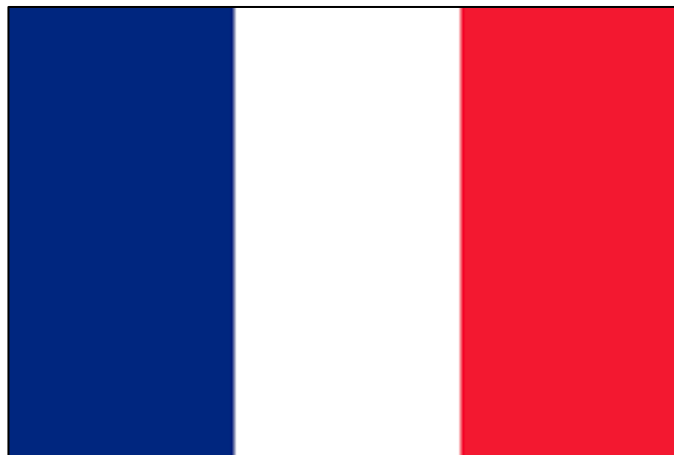

Create a model or drawing of the Eiffel Tower.

France

Home Learning

Share on Microsoft Teams or bring it in for show and tell.

French

Create a poster of key French words (greetings, days of the week, colours etc.) to display in the classroom.
