

We will know where London is on a map, and be able to explain what London is like, and what places we could visit there.

We will be using compass points to discuss where places in the UK are compared to other locations, such as 'Plymouth is South of Cardiff.'

We will

be able to name and locate on a map Plymouth, and the 4 countries of the UK. We will know their capital cities and be able to discuss some landmarks from those places.

What I already know:

- I live in Plymouth, the name of some places in Plymouth, I live in the UK, the name of the place I was born, the UK has seasons.
